MILLER AND LENTS EXPANDS STAFF

Houston, Texas — Global petroleum engineering consulting firm Miller and Lents (M&L) has expanded the firm's geoscience team by hiring two new professionals in late 2021.

"Our new employees will enhance our capabilities and position Miller and Lents for even greater client service," said firm CEO Robert Oberst. "We pride ourselves on hiring professionals who share our vision of integrity and excellence." Each new team member brings a variety of qualifications and years of experience to the firm.

Pavel Galperin (pgalperin@millerandlents.com) joined the firm as a Senior Geologist. His previous employers include Marathon, Shell, Statoil, and Waterford Finances. A member of the American Association of Petroleum Geologists, Galperin brings over 20 years of petroleum geology, and has extensive domestic and international experience.

Lauren Robinson (lrobinson@millerandlents.com) joined the firm as a Senior Geologist. She has more than 15 years' diverse experience in petroleum geology for oil and gas projects in Fort Worth Basin, South Texas, Anadarko Basin, Williston Basin, Permian Basin, and Uinta Basin. She has also worked on geologic reserves evaluations in various basins in Russia, the Republic of Georgia, and the Republic of Kazakhstan. Robinson previously worked at EOG Resources, Marathon, and EP Energy.

Miller and Lents has served the oil and gas industry with trusted upstream insights and reservoir evaluation since 1948. Headquartered in Houston, Texas, the M&L team provides reliable, independent analysis to clients across the globe.
